A Family Emergency Plan should NOT include which of the following?

D. Arrangements for each person in the family to be at a specific land line telephone at a specific time.

Correct:

The arrangements for each family member to be at a specific land line telephone at a specific time may not be possible or useful under many conditions, as people may have to relocate or evacuate entirely during a disaster. Families should create an emergency plan and carry important information with them so they know how to get in touch and get back together during an emergency. Finally, both telephone land lines and cellular phones may be overloaded or out of service during or after an emergency, so knowing in advance where to meet is important.

Which of the following is NOT a recommended action for emergency preparedness?

A. Creating a family emergency plan

B. Stockpiling antibiotics

C. Becoming knowledgeable about types of potential emergencies and responses

D. Getting an emergency supplies kit

Question #4

Which of the following is NOT a recommended action for emergency preparedness?

A. Creating a family emergency plan

B. Stockpiling antibiotics

C. Becoming knowledgeable about types of potential emergencies and responses

D. Getting an emergency supplies kit

Incorrect:
Please select another answer.

Which of the following is NOT a recommended action for emergency preparedness?

B. Stockpiling antibiotics

Correct:

Stockpiling antibiotics is not recommended because it is impossible to predict the exact nature of a biological emergency and there is not one antibiotic that effectively treats all possible bioterrorist-related sicknesses. In addition, inappropriate use of antibiotics can potentially lead to dangerous side effects and also contributes to the problem of many organisms developing antibiotic resistance.

Which of the following is the federal government's Web site that provides information about how to get prepared for a natural disaster or other emergency?

C. www.ready.gov

Correct:

www.ready.gov, the Web site of the U.S. Department of Homeland Security's Ready Campaign, is designed to educate and empower Americans to prepare for and respond to potential emergencies. The goal of the campaign is to get Americans involved and ultimately to increase the level of basic preparedness across the nation. Ready asks Americans to do three key things: get an emergency kit, make a family emergency plan, and be informed about the different types of emergencies that could occur and their appropriate responses.
