FFY 2010 Urban Area Security Initiative Nonprofit Security Grant Program (UASI NSGP)

Information Sheet

The UASI NSGP provides funding support for target hardening activities to nonprofit organizations that are at high risk of terrorist attack. While this funding is provided specifically to high-risk nonprofit organizations under the *Department of Homeland Security Appropriations Act, 2010* (Public Law 111-83), the program seeks to integrate nonprofit preparedness activities with broader State and local preparedness efforts. It is also designed to promote coordination and collaboration in emergency preparedness activities among public and private community representatives, State and local government agencies and Citizen Corps Councils.

Eligible Applicants

- Registered 501(c)(3) nonprofit organizations located within the Phoenix or Tucson UASI
- Nonprofit organizations that are at high risk of terrorist attack. Includes, but not limited to:
 - Identification and substantiation (e.g., police reports or insurance claims) of prior threats or attacks against the nonprofit organization or closely related organizations (within or outside the U.S.) by a terrorist organization, network, or cell
 - Symbolic value of the site(s) as a highly recognized national or historical institution that renders the site as possible target of terrorism
 - Role of the applicant nonprofit organization in responding to or recovering from terrorist attacks
 - Findings from previously conducted risk assessments including threat or vulnerability

Scope of Eligible Target Hardening Projects

Equipment

Allowable costs are focused on target hardening activities. Thus, funding can be used for the acquisition and installation of security equipment on real property (including buildings and improvements) owned or leased by the nonprofit organization, specifically in prevention of and/or protection against the risk of a terrorist attack. This equipment is **limited to two categories** of items on the US DHS Authorized Equipment List (AEL):

- Physical Security Enhancement Equipment (Category 14)
- Inspection and Screening Systems (Category 15)

The two allowable prevention and protection categories and equipment standards for the FFY 2010 NSGP are listed on the web-based version of the AEL on the Responder Knowledge Base (RKB), at <http://www.rkb.us>.

Training

Nonprofit organization security personnel may use FFY 2010 NSGP funds to attend security-related training courses and programs. Allowable training-related costs under the FFY 2010 NSGP are limited to attendance fees for training, and related expenses, such as materials, supplies, and/or equipment. Overtime, backfill, and/or travel expenses are not allowable costs. Allowable training topics are limited to the protection of critical infrastructure key resources, including physical and cyber security, target hardening, and terrorism awareness/employee preparedness. Training conducted using FFY 2010 NSGP funds must address a specific threat and/or vulnerability, as identified in the nonprofit's Investment Justification. ***Proposed attendance at training courses and all associated costs leveraging the FFY 2010 NSGP must be included in the nonprofit organization's Investment Justification.***

Nonprofit organizations are required, within 30 days after attendance, to submit information to the SAA on all training supported with FFY 2010 NSGP funds. This information will consist of course titles, course description, mission area, level of training, the training provider, and the date of the course.
